Boopy's Angels is a selection of outstanding projects children can fundraise for and follow the progress throughout the year and beyond.

THE POWER OF CHILDREN

Those projects from around the world are carefully selected to bring a **wide vision of our planet** in the field of *education, healthcare, environment*, sciences & technology, architecture and more. They show HOPE, determination and resilience as well as *simple clever solutions to challenging problems.*

Boopy's Angels bring children **a platform to dream** and achieve even bigger **dreams** for **a better world**. It is a non-profit action with 100% of the funds raised going to wonderful **practical projects** where everyone makes a difference and understands *the big picture.*

With **Boopy's Angels**, you can **save children** from malaria, **help people** recover their sight, explode mines that would have killed innocent victims, help rangers **protect** elephants and rhinos, **GIVE HOPE** to children with cancer, look for a cure to a rare disease, clean the ocean, build bridges in China, spread **PEACE**, light up clinics and support so many more incredible actions.

With a simple process and support from the Eco-Sys Action Foundation, **Boopy's Angels** will relieve time pressures on busy schools but bring huge social and emotional benefits as well as **INSPIRATION** to their students.

This tremendous adventure is opened to ALL STUDENTS (Kindergarten, Primary, College, University) instilling memories of a lifetime. That's *the power of our children, our today's inspiration for a better tomorrow.*

Who is Boopy?

Boopy is an eco-detective orange sparrow. Boopy symbolizes hope and strength for children around the world, always looking for fun and meaningful actions. "Think out of the box, respect, act and inspire others" is his motto. His colorful flag embodies the spirit of children helping other kids, eco-systems and endangered species.
